**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 17-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Joglekar (U.S. Patent 5,535,258).

With respect to claim 1, Joglekar discloses a method of making a hands-free mobile telephone call comprising the steps of: accessing an electronic telephone directory; searching the electronic telephone directory (See e.g. 200-1 through 200-N, Co. 8, Line 63 – Co. 9, Line 3); sending a signal to select an entry in the electronic telephone directory (See e.g. Co. 9, Lines 3-10); generating an audible announcement of the entry in the electronic telephone directory; and sending a signal to the mobile telephone to make the mobile telephone call (See e.g. Co. 9, Lines 10-18, For More Co. 9, Lines 19-37).

Regarding claim 17, Joglekar discloses accessing the electronic telephone directory comprises accessing an electronic telephone directory in the mobile telephone (See e.g. Co. 8, Line 63 - Co. 9, Line 37).

Regarding claim 19, Joglekar discloses generating an audible announcement of the entry in the electronic telephone directory includes using a speaker or earphone to permit a user to hear the audible announcement (See e.g. 438 of Fig. 8, 538 of Fig. 9 & Co. 11, Lines 42- 50).

Regarding claim 20, Joglekar discloses generating an audible announcement of the entry in the electronic telephone directory includes using a mobile telephone speakerphone or earphone to permit a user to hear the audible announcement (See e.g. Co. 9, Lines 3-17)

Regarding claim 21, Joglekar discloses generating an audible announcement of the entry in the electronic telephone directory includes using a motor-vehicle speaker or earphone to permit a user to hear the audible announcement (See e.g. 438 of Fig. 8, 538 of Fig. 9 & Co. 11, Lines 42- 50).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over Joglekar (U.S. Patent 5,535,258) in view of Nishihara (U.S. Patent 5,561,712).

With respect to claim 18, Joglekar discloses everything as discussed above in claim 1. However, Joglekar does not teach the accessing the electronic telephone directory comprises accessing an electronic telephone directory in an external memory system. In the same field of endeavor, Nishihara discloses a hands-free phone set (See e.g. Title, Abstract) and external memory system (See e.g. 200 and 206 of Figs. 1-2). Therefore, it would have been obvious to one ordinary skill in the art at the time of the invention to provide above teaching of Nishihara to Joglekar provide a controller and a memory accessing an electronic telephone directory in an external memory system.

***Allowable Subject Matter***

5. Claims 2-16, 22-38 are allowed.

The following is an examiner's statement of reasons for allowance: 2-16, 22-38.

With respect to claim 22, the prior art of record fails to disclose or render obvious that the mobile communications system comprising: a satellite remote having at least one means for scrolling through the electronic telephone directory; and means for sending a signal from the satellite remote to the mobile telephone.

With respect to claim 38, the prior art of record fails to disclose or render obvious that the mobile communications system comprising: a satellite remote having a scroll wheel for scrolling through the

electronic telephone directory; an electronic voice generator for audibly announcing a party to be called; and a button for sending a signal from the satellite remote to the mobile telephone.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Claims 2-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

With respect to claim 2, the prior art of record fails to disclose or render obvious that the satellite remote is used to access the electronic telephone directory, to search the electronic telephone directory, to select an entry in the electronic telephone directory, and to send the signal to the mobile telephone.
